Welcome to the world of extraordinary mat board cutting. For the first time in the evolution of computerized cutting machines, the Professional version of the GUNNAR AiOX product family offers the most efficient capabilities for the picture framing industry. Swiss quality and precision for every picture framer. That’s our promise.
**PRODUCT CHARACTERISTICS**

- Two separate, fully synchronised cutting heads for independent, highly efficient 45° and 90° cuts
- Automatic blade depth adjustment DBD for V-grooves and double mats
- No tool change, complete mat board production, including inside and outside cuts as well as V-grooves and decorative cuts in one uninterrupted process
- Cutting edge to edge to maximise mat board usage with unique button finger clamps and optional vacuum bed
- Tool-less blade change within seconds
- Perfect cut results for all boards guaranteed up to 3.5 mm thickness and up to 5.0 mm thickness for foamboards with the 90° cutting head
- Simple and intuitive operation thanks to comprehensive and in-house developed GMC operating software
- Revolutionary modular, compact and modern system design and completely flat table

**MAIN APPLICATIONS**

Frame shops and framing businesses with the aim of cutting mat boards in large scale production, highly precise, fast, very efficient, computer-assisted and sustainable cost-efficient.
